

April 3, 1974

PRESIDENT: Senator Whitney.

SENATOR WHITNEY: Mr. President, I'm against the kill motion. And the reason why, it is that the in the whole United States, as I understand it, there was a poll taken. And the people now just simply don't like what we had this year, so that being the case, I think the other states are going to want to go back to what we had in the past, and therefore I am not in favor of the kill motion.

PRESIDENT: Senator Keyes.

SENATOR KEYES: Well, Mr. President, if I understand it right. It means that we are not going to have daylight savings time in the winter, and next spring we will go right back like we have on the daylight saving time. Is that right, Senator DeCamp. I can't hear you shake your head, but I know what you are saying is right. So explain to him that's what it is, don't kill this bill, let's get it going.

PRESIDENT: Senator Chambers.

SENATOR CHAMBERS: Mr. President, I promise Senator DeCamp I'd help him get it off of General File. And I'm going to do what I can to help get it off General File. If when it gets to Select File he amends it to take off the 55 mile an hour speed limit I'll support it all the way across the board.

PRESIDENT: Senator Rasmussen.

SENATOR RASMUSSEN: Mr. President and members of the body. I certainly oppose this kill motion. And I ask for the question.

PRESIDENT: That's going to come very quickly. The question has been called for. Do I see five hands. All those in favor of ceasing debate vote aye, those opposed vote no. Clerk will record.

CLERK: 26 ayes, no nays.

PRESIDENT: Senator DeCamp may close. Excuse Senator Syas.

SENATOR SYAS: Just one short statement. It would be a mistake

and when Senator DeCamp or anybody else on this floor, like Senator Waldron stands up and tells you that we are assured that we can go back in 75 to daylight savings time if we enact this bill, you have no assurance of that whatsoever, and that they know there is no a..basis of fact for that because they do not know, and neither does anyone else know what's going... ~~what~~ the rules are going to be in the summer of 75, and when they stand up here and tell you this is so, that it's going to happen that this will be it. It's not the truth, and they don't know it and they shouldn't put out stuff like that when they don't know. And it's misleading all of you that they are assuring you
